

## WILL HAVE MANY HORSES AT FAIR

Frank St. D. Skinner, the well known turf official, who is to act as president judge, programmer and handicapper for the 20-day running meeting to start at Ogden Sept. 23, has opened his office at Ogden and says that every indication points to one of the best half mile track meetings ever held in the west.

"Ogden has always been handicapped by a lack of horses, necessitating small fields," said Judge Skinner yesterday. "This fall, however, we will have all we can take care of, and not only in numbers, but in class of the horses, will Ogden see the best meeting in its history. Only yesterday I received the application of Jack Keene asking for 35 stalls. Mr. Keene is shipping his stable from the New York tracks for the winter racing at Oakland, and will stop over in Ogden. Other eastern horsemen on their way to California have also applied for stall room. The Keene stable is one of the largest in the east."

"From Montana and Colorado will come the pick of the animals now racing there, and altogether the Ogden meeting cannot help but be a big success."

Dick Dwyer, who is to be the general manager and starter of the meeting, is now presiding at the barrier at Ancon, but will be here by Sept. 15. During the 30 days that Mr. Dwyer started Butte he made hundreds of friends and his starting was a revelation to the Butte race goers.

Mr. Skinner said yesterday that the track at Ogden was being placed in the best of condition for the opening of the meeting. The new paddock is a much needed improvement to the track, and other improvements will be made for the convenience of the patrons and horsemen.

Special trains will be run from Salt Lake and plans are now being made to run the trains right up to the north side of the fair grounds and an entrance made on that side. This arrangement will do away with the transfer to street cars to get to the track.

## WILD DUCKS ARE DYING RAPIDLY

Local sportsmen are considerably depressed over the reports of the contagion that has broken out among the ducks infesting the eastern shores of the Great Salt Lake.

Thousands of ducks are dying daily from this mysterious malady, and the disease has apparently spread to all the feeding grounds in the state. The birds are dying so rapidly that the indications are that there will be little, and possibly no duck shooting this fall, and there is a possibility of a quarantine being placed upon the ducks in order to preserve the public health by preventing the infected game from being served as food.

Several different investigating parties have gone to various parts of the state to look into the conditions. In each instance the reports have been practically the same. At all of the principal feeding grounds hundreds of dead ducks have been found, while there are hundreds of others apparently afflicted with the malady. The disease appears to be a particularly malignant form of roup that paralyzes the ducks.

Sportsmen are greatly disappointed.

## AUTOISTS ON A LONG TRIP

Mr. and Mrs. W. H. Drew of Pasadena, Cal.; Fred C. Drew of San Bernardino, Cal.; and Miss Gertrude Klein of Sparta, Mich., arrived in Ogden yesterday evening in their Chalmers "20" on their auto trip from the Michigan city to California. They left early this morning for Elko, Nev., the next leg of their journey.

The trip is solely for pleasure. The party is equipped with everything that would tend to make the trip a comfortable one, and with guns and fishing tackle, which they have used to advantage during the ride through the western country.

## PUBLIC AUCTION OF PRIZE SHEEP

The public auction sales attending the International Sheep Show, which will be held on the last two days of the exhibition, promise to be the feature of the show.

Three thousand sheep, including over 2,000 of the highest grade rams, and 1,000 of the classiest ewes in the world, will be offered for sale during these auctions, making this the greatest and largest sheep sale ever held.

The very highest grades of sheep, comprising all the famous breeds, the Cotswolds, Lincolns, Shropshires, Ramboulets, Dartmores, Oxford, Hampshire, Delaines and Merinos, in fact every member of the sheep family, will be on sale, and any one head of any class would prove a very valuable acquisition to any breeder.

This is considered to be the greatest opportunity ever offered the sheep men of this country for the inspection and purchase of strictly high grade stock. Every big flockmaster and breeder will be represented at the International Sheep Show. Every enterprising firm has entered selections from his stock in the competition for prizes, and most of them have shipped large entries for the auction sales.

The last two days of the show, Sept. 28 and 29, will be devoted entirely to the auction sales, and a large attendance is assured. Prominent breeders from every section of the United States and Canada have expressed the intention of attending these sales, either as prospective purchasers or as sellers of sheep, and the interest already displayed in the sales would indicate that the offerings of the fancy stock will be quickly snapped up.

Secretary Fred W. Herrington advises that he already has entries in sales for 1,800 bucks of the highest class for general range use. Three hundred Shropshire ewes are promised by one breeder, while numerous smaller shipments are offered, and the applications for space for these sales continue to pour in daily.

Mr. Herrington expects to have at least 3,000 sheep on sale before the entries close. This flock, when loaded on cars for shipment, would make a train of 375 cars, and will require the attention of scores of herdsmen.

When this flock is added to the hundreds of sheep entered in the show proper, for prizes, one might realize the greatness of the undertaking.

Ogden will be overrun with sheep during the show week. Sheep will be pastured all over the suburbs adjacent to the fair grounds, they will be penned on the grounds and cared for as carefully as any thoroughbred race horse. Half the population of the city will be sheep men, and seven-eighths of the gossip about town will be "sheep talk," and Ogden will establish itself as the sheep town of America.

All of the above named breeds of sheep will be on sale at the finest imported bucks and ewes. The Cotswolds at the present time have the lead in the sales entries, with the Lincoln second and the Shropshire third, but these positions are likely to change with the next delivery of the United States mail.

Such big, live stock firms as the Butterfield Live Stock Co. of Idaho, F. S. King Bros. of Laramie, Robinson of Canada and Roland of Ontario, have choice stock on sale. Others offering sheep for auction are: P. W. Hardy of Wisconsin, George McCarey & Sons of Idaho, James Port of Idaho, W. F. Renk of Michigan, A. J. Knowland of Idaho, H. C. Woods of Spencer and J. S. Hartley of Iowa.

## MARRIAGE LICENSES

Marriage licenses have been issued to Cleveland Redfield and Emma Mary Stone of Ogden, and to James Hyrum Cragan and Bertha Louise Packham of Pleasant View.

## IRRIGATION CENSUS OF UTAH WILL BE TAKEN

R. P. Teele of Washington, D. C., assistant chief of irrigation investigation of the department of agriculture, and special agent in charge of the census of irrigation in Salt Lake City for the purpose of starting the census of irrigation, having made Salt Lake City the headquarters for the entire arid region. The object of this census is to find out how much land is irrigated, capital invested, amount of water used, price of land and water rights, and the crops grown. Mr. Teele expects to complete this work within six months.

Mr. Teele spent the summer of 1901 here and prepared a report on irrigation in Utah which has since been published by the department of agriculture. Assisting Mr. Teele are George W. Crane of Washington, D. C., who is connected with the regular census bureau and who will have charge of the office here in Salt Lake City; W. W. McLaughlin of Logan, Utah, state agent of irrigation investigation of the department of agriculture, who will have charge of the census work in Utah; and John Tuttle, John Stewart and Ralph Woolley, local men who have been appointed to assist in the work in Utah.

## ENGINEERS' SOCIETY APPOINTS DELEGATES

The Utah Society of Engineers has appointed five delegates to represent the society at the meeting of the International Good Roads association to be held in Ogden Sept. 23, 24 and 25. Wm. Ashton, G. F. McGonagle, H. H. Knowles and R. R. Lyman of Salt Lake and A. B. Parker of Ogden will represent the society.

The society will hold a regular meeting next Friday evening at 8 p. m. in Salt Lake City. An interesting paper on the International Smelter and Refining company's new smelter at Tooele will be presented by Messrs. Repath and McGregor, the designing engineers of the plant.

## CHEROKEES FACE ROBBERY CHARGE

Frank Bell and Bill Rio, half-breed Cherokees are charged with robbery in an information filed in the district court by District Attorney N. J. Harris. It is stated in the information that the two men on the night of July 23, held up and robbed N. B. Loggren of \$9, they using a mock revolver to persuade Mr. Loggren to deliver up his cash. Other robberies have been committed that night, and officers suspicion the defendants of being the perpetrators, but there is not sufficient evidence obtainable to warrant filing further complaints.

## ALLEGED TO HAVE ISSUED BAD CHECK

An information has been filed in the district court charging C. P. Howard with issuing a fictitious check August 27. It is said by the district attorney in the information that Howard signed the name A. L. Larson to a check for \$16.85 and attempted to pass the same for money with C. H. Smith.

# Make Your "Meat" Shredded Wheat

These are troublous times for the man who eats food.

The Government is after the beef trust, the poultry trust and "the cold storage egg". But while congress, state legislatures and grand juries are "investigating" the high cost of living, your meat bills and grocery bills are soaring higher and higher.

The food problem is an easy one if you know

**SHREDDED WHEAT**  
It contains more real body-building nutriment than meat or eggs, is more easily digested and costs much less. Always clean—always pure—always the same price. Your grocer sells it.

ALL THE "MEAT" OF THE GOLDEN WHEAT

Shredded Wheat Biscuit is made of the whole wheat, steam-cooked, shredded and baked in the cleanest, finest food factory in the world. It is ready-cooked, ready-to-serve. Two Shredded Wheat Biscuits heated in the oven to restore crispness, and eaten with a little hot milk, and salted or sweetened to suit the taste, will supply all the energy needed for a half-day's work. If you like it for breakfast, you will like it for any meal in combination with vegetables, baked apples, sliced bananas, stewed prunes or other fruits.
